DETAILED ACTION

Response to Amendment

1. This office action is in response to the amendment filed on 12/7/07 in which applicant amends claims 1, 4, 10, 12-14, 23-24, 29-30, 32-34, 37-39, 45, and 52-53.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on 12/7/07 has been entered.

Reasons for Allowance

3. Claims 1-53 are allowed.

4. Applicant's election with traverse of Group I in the reply filed on July 12, 2007 is acknowledged. The traversal is on the ground(s) that Group II requires the player not be present at any of the gaming terminals when awarding the payout. However, upon further consideration, Group I does not preclude a player not being at the gaming terminal. The argument is found persuasive. Therefore, claims 1-53 are pending.

5. The following is an examiner's statement of reasons for allowance:

The instant invention is deemed an improvement over the prior art. In prior art progressive games, the progressive jackpot is available to anyone who is playing at a gaming terminal that is participating in the progressive game. While playing at the gaming terminals, players participating in the progressive game are excited about the possibility of winning a progressive jackpot amount that continues

to increase as players continue to play. Once players conclude their gaming sessions at the gaming terminals, however, they often feel as though they have lost all chances of winning, and their sense of excitement is diminished. In particular, any expectations the players have of winning the progressive game are ended once they leave the gaming terminal.

The instant invention is distinguished over the prior art because it is directed to satisfying these needs in that it enables players to continue to feel the sense of excitement after the progressive gaming session has ended by providing a progressive game that allows players to continue to be eligible to win a progressive jackpot amount after their gaming session has ended. If the progressive payout is not awarded during a selected time period, then the progressive game controller randomly selects one of the players who is eligible for the progressive payout, and awards the progressive payout to that player. Moreover, progressive payout that can be awarded to a randomly selected player who concluded playing the wagering game, and who is not present at the gaming terminal when the random selection is made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
